SUMMARY

Altar is a **Frontend Developer with over 1 year of experience**, passionate about creating user-friendly applications. Values open communication and collaboration as a dedicated team player to achieve project goals effectively.

EDUCATION

2018 - 2023 Bachelor's Degree in **Software Engineering**, Yasar University, Turkey

WORK HISTORY

July – September 2022 **Frontend Developer Intern, BREW INTERACTIVE** | skoda.com.tr

- My focus was on learning web development in general and comprehending the project's codebase. Key responsibilities included collaborating with fellow developers, addressing design bugs, creating user appointment components, and contributing new information to the project documentation.

April 2023 - Present **Frontend Developer, BEFORE SUNSET AI** | app.beforesunset.ai

- I am actively involved in developing an AI-driven productivity tool. Key contributions include building team features, implementing payment logic, integrating user analytics, and actively participating in ongoing enhancements, encompassing feature development and testing.

SKILLS

- Programming Languages: **HTML, CSS, JavaScript, TypeScript**
- Frameworks and Libraries: **Node.js, React.js, Next.js, Redux, Zustand, Tailwind**
- Testing: **Jest, React Testing Library**
- Tools: **Git, GitHub, Bitbucket, JIRA, CI/CD**
- Languages: **Native Turkish, Upper-inter level English**
